1. PETITION SUMMARY

1.1. Details of the Petitioner

1.1.1 Name and address

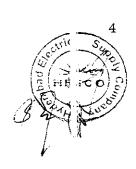

Hyderabad Electric Supply Company Limited ("HESCO" or the "Company"), WAPDA offices Complex, Hussainabad, Hyderabad.

1.1.2 License details

1.1.2.1 HESCO is a licensee of National Electric Power Regulatory Authority ("NEPRA") and holds the Distribution License bearing No. (05/DL/2023) & Electric Power Supply License (SOLR/05/2023).

1.1.3 Key representatives

- 1.1.3.1 The petition is being filed through Mr. Rehan Hamid, the Chief Executive Officer of the Company who has been duly authorized to sign and file the Multi Year Tariff ("MYT") Petition for the fiscal years 2025-26 to 2029-30 ("Tariff Period") and also to file a review for leave for motion (if necessary). Grounds for petition
- 1.1.3.2 Under the "Regulation of Generation, Transmission & Distribution of Electric Power Act, 1997 (hereinafter called as 'NEPRA Act'), the regulator (National Electric Power Regulatory Authority or NEPRA) is empowered to determine tariffs and other terms and conditions for the supply of electricity by the generation, transmission and distribution companies.
- 1.1.3.3 The Company is licensed public limited company distributing and supplying electricity to the distribution area within its jurisdiction, as set out in the Company's license. In accordance with the requirements of the license, the Company is hereby submitting a petition which sets out a methodology for setting and reviewing tariffs throughout the period of the Company's license, subject to a rebase once every five years.
- 1.1.3.4 The petition is being filed in accordance with Rule 3(1) (2) of "NEPRA (Tariff Standard and Procedure) Rules, 1998 (hereinafter called as "Tariff Rules")", NEPRA guidelines for determination of consumer end tariff issued vide SRO 34 (1)/2015, dated 16th January, 2015 and in compliance with the directions of NEPRA to file Multi Year Tariff Petition for the determination of consumer end tariff.

1.2. Key Aims and Features of the Petition

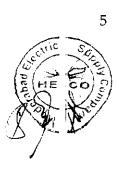

1.2.1 Key aims of the petition

- 1.2.1.1 The aim of this petition is to submit the Company's MYT for the period FY 2025-26 to 2029-30 and to obtain requisite approvals for the immediate implementation of cost reflective tariffs to yield the Company's required revenues.
- 1.2.1.2 The key objectives of tariff petition include:
 - Ensure its financial viability through timely recovery of its prudently incurred expenditures;
 - Ensure that a reasonable return is earned on investments;
 - Comply with regulatory standards and future investment for supply of services;
 - Provide the utility with a tariff that supports fiscal independence while encouraging future investments in the service area.
 - To provide financial sustainability to the Company for the ultimate benefit of end consumers.

1.2.2 Summary of key proposals

1.2.2.1 The petition includes the following key parameters:

No.	Feature	Details
1	Tariff Period	Five year multi-year tariff for the period FY 2025-26 to FY 2029-30
2	Distribution Margin	The existing Distribution Margin (DM) has been modified to consider impact of internal and external factors, including inflationary impacts, increase in regulatory asset base, expansion of service area, increase in salaries, retirement benefits, repair & maintenance and depreciation etc.
3	Indexation of O&M	The O&M cost is being proposed to be indexed to Consumer Price Index (CPI) during the tariff period.
6	Allowance for Additional Hiring	Given the Company's current constraints relating to human resources and future requirements, a total of 2,884 additional personnel are being proposed to be added to the workforce under different cadres ranging from BS 1 to 20.
7	Repairs & Maintenance Costs	The company maintains their operational and other assets on regular basis in order to run the operation smoothly. The repair & maintenance costs has been determined at 4% for FY 2025-26 and 3% for FY 2026-27 to 2029-30 of net fixed assets.
8	Return on Rate Base	It is proposed that the Company receives 12.00% Weighted Average Cost of Capital (WACC) for the tariff period.

9	Prior year adjustments (PYA)	Prior-year adjustments comprises of unrecovered or excess recovery of distribution margin, unrecovered PYA for prior years.
10	Retirement Benefit Payments	The company has created a separate fund for the retirement benefits for all employees of supply as well as for distribution business, which needs to bi-furcate in detail through an actuarial. For this petition purpose the retirement liabilities has been bi-furcated proportionately on the basis of Basic pay. And projected on the basis of CPI.

2. TARIFF METHODOLOGY

- NEPRA (Tariff Standard and Procedure) Rules, 1998 which provides details on the tariff 2.1.1 setting process and broad parameters of tariff setting contain provision for a formula-based tariff. Additionally, the Rules also provide for a multi-year tariff from 3-5 years for a distribution company.
- In accordance with the provisions in the said NEPRA Rules, it is submitted in this petition that the Company's tariff be changed to a five-year tariff with indexation every year and rebasing at the end of the five-year control period.
- 2.1.3 The formula-based method of computing the Company's tariff reduces ambiguity for the utility and ultimately benefits the consumers as it reduces yearly volatility in the end-user tariff.
- 2.1.4 The proposed tariff regime seeks to compute yearly revenue requirements of the DISCO based on a five-year investment plan and expected demand for electricity going forward. The tariff broadly comprises:
 - a) Pass-through costs: Power Purchase Price (PPP), including impact of T&D losses
 - b) Distribution margin
 - c) Prior-year adjustment
- The company in view of amended Act has to file tariff petition separately for its supply 2.1.5 business and distribution business. This petition is for distribution business hence, the component of power purchase price has been incorporated in the tariff petition of supply business. Therefore, here only distribution margin and prior year adjustment will be requested.

2.2. Distribution Margin

Distribution margin seeks to enable the utility to cover prudently incurred operating costs as well cover costs for securing both debt and equity capital.

2.2.1 **Operations and Maintenance Costs**

2.2.1.1 It is being submitted that the O&M cost is bifurcated into Salaries and other benefits (including post-retirement benefits), repair & maintenance expenses, travelling expenses, vehicle running expenses and other expenses. The O& M cost should be indexed every year as per CPI.

2.2.2 Return on Rate Base

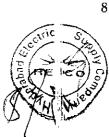

2.2.2.1 According to Rule 17(3)(iii) of the NEPRA Tariff Standards and Procedure Rules 1998, tariff should allow the licensee a rate of return, which promotes continued reasonable investment in equipment and facilities for improved and efficient service.

- 2.2.2.2 It is important that returns provided to the DISCO commensurate with the risks associated with the sector. The rate of return should provide for a return which is commensurate with the prevailing cost of funds available in the market and with the risk involved in delivering the utility services.
- The return on rate base to the Company is based on application a Weighted Average Cost 2.2.2.3 of Capital (WACC) to its regulatory asset base. The WACC is in turn based on return on equity and cost of debt weighted proportionately according to the debt and equity on the DISCO's balance sheet.

 $RORB = Rate\ base \times WACC$

Where,

Rate base = Average net fixed assets + Closing work-in-progress - Deferred credit - Surplus on revaluation of fixed assets

3. TARIFF ANALYSIS

3.1. Average tariff

3.1.1.1 The following table details the projected components of the Company's tariff for the tariff period.

Table 3.1: Average tariff for tariff	control period	for HESCO	in PKR/kw	h	
Detail	2025-26	2026-27	2027-28	2028-29	2029-30
Total Units Purchase (GWh)	5,409	5,693	5,975	6,027	6,093
Total Units Sale (GWh)	4,006	4,300	4,606	4,688	4,784
T&D Losses (%)	25.94%	24.47%	22.91%	22.21%	2 1.49%
Distribution Margin:				_

Depreciation	0.76	0.95	1.04	1.15	1.24
Return on rate base	1.67	2.14	2.47	2.76	2.91
Other Income	(0.29)	(0.27)	(0.26)	(0.25)	(0.25)
Total distribution margin	7.92	8.63	9.11	9.93	10.60
Income tax		-		<u>-</u>	-
Revenue Requirement	7.92	8.63	9.11	9.93	10.60
Prior year/PPP adjustments			-	- -	
Total Revenue Requirement	7.92	8.63	9.11	9.93	10.60

3.2. Summary of tariff assumptions

- 1. *Inflation*: The CPI to be used in indexing the tariff yearly shall be the one notified by the Pakistan Bureau of Statistics.
- 2. Efficiency Factor: The X factor has been set a 0% for the tariff period.
- 3. Target T&D Losses: The T&D losses target has been set at 25.94% for the first year which gradually reduces to 21.49% by the end of the tariff period.
- 4. *O&M*: The O&M is set at PKR 5.78/kWh for the first year of the tariff that is subject to the CPI.
- 5. Opening Gross Fixed Assets: The value of the Opening GFA used in the base year of the tariff period has been determined on the basis of the latest available financial statements of the Company as of 30th June 2023.
- 6. Regulatory Asset Base: It is calculated as the sum of Opening GFA and capital additions less depreciation, plus capital work-in-progress and less deferred credit.
- 7. Rate of Return: The rate of return of 12.00% has been taken as set by NEPRA in it tariff determination of HESCO for the FY 2025.26.
- 8. Return on Rate Base: RORB is calculated as the Rate of Return on the Regulatory Asset Base of the Company.

9. Distribution Margin: The distribution margin of the Company is calculated as the sum of O&M, Depreciation and RORB.

3.3. Analysis of key components

3.3.1 Transmission and Distribution Losses

- 3.3.1.1 To achieve the reduction in target T&D losses, the Company has prepared a Transmission & Distribution Plan, which includes formation of new grids, conversion of existing grids, revamping of secondary transmission (66, 132 KV) lines, augmentation of HT & LT lines, provision of T&P items, induction of low loss transformers, theft detection by enforcement agencies and replacement of sluggish meters, with static meters and upgrade to Automated Meter Reading and Advanced Metering Infrastructure.
- 3.3.1.2 NEPRA has to determine the difference between the units procured and units sold within the distribution service territory that includes the Technical as well as Administrative Losses. In the determination for FY 2024-25, NEPRA had set a T&D Loss target at 17.55% against the projected losses of 26.56% for FY 2024-25.
- 3.3.1.3 A review of the five year historical T&D loss trend indicates that the Company has maintained its T&D losses despite notable impacts of load growth, addition in the distribution network and number of consumers.

Table 3.2: Historical analysis of T&D losses					
Fiscal Year	T&D losses				
2018-19	29.52%				
2019-20	28.89%				
2020-21	28.20%				
2021-22	28.09%				
2022-23	27.49%				
2023-24	27.15%				
2024-25	26.44%				

3.3.1.4 Proposed Transmission and Distribution Losses for FY 2025-26 to 2029-30 are given below:

Table 3.3: T&D Losses break-up

	FY26	FY27	FY28	FY29	FY30
Transmission Losses 132 kV	3.27%	3.24%	3.21%	3.18%	3.15%
11 kV + Transformer + Cable Metering Loss	9.26%	8.61%	7.93%	7.66%	7.39%
LT Losses	4.69%	4.36%	4.02%	3.88%	3.74%
Distribution Loss	13.95%	12.97%	11.95%	11.54%	11.13%
Total Technical Losses	17.22%	16.21%	15.16%	14.72%	14.28%
Admin. Losses	8.72%	8.26%	7.75%	7.48%	7.21%
Total T&D losses	25.94%	24.47%	22.91%	22.20%	21.49%

The reasons of high losses are as under:

- i. The worst Law & Order situation does not permit frequent movement to HESCO staff in their jurisdiction. Attacks on employees / offices are common.
- ii. Massive theft of electricity & non-payment culture are the main problems of HESCO. Law Enforcing Agencies are not extending cooperation for providing security to staff and lodging FIRs against stealers of electricity.
- iii. Majority of villages/town/colonies are HESCO defaulters, and in case of disconnection, the defaulters blocks the highways/roads to create hurdles.
- iv. Due to worst Law & Order situation customers stealing electricity through Kunda / Hooking in negated LT lines.
- v. Even ABC (Aerial Bundled Conductor) installed in Hyderabad City has been damaged by stealers for direct hooking/Kunda.
- vi. Due to above reasons a theft culture has been established in HESCO jurisdiction, but HESCO management is trying best to curtail it, which will take a considerable time.

3.3.2 Operating and Maintenance Costs

3.3.2.1 A summary of the forecasted O&M Expenses for 2020-21 to 2024-25 is as under:

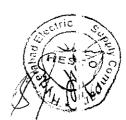

Table 3.4: Operating and Maintenance Cost Breakup (PKR million) 2025-26 2026-27 2028-29 2029-30 2027-28 8,367 9,273 Pay and allowances 8,907 9,678 10,121 Post-retirement benefits 8,728 9,601 10,561 11,617 **12,77**9 Pay and allow: new 1,264 1,973 1,605 2,354 2,741 hiring Repair and maintenance 2,365 2,700 3,028 3,400 2,411 Travelling allowance 369 385 424 466 513 Vehicle maintenance 546 650 571 496 600 1,105 Other expenses 950 974 1.005 1,221 PM assistance package 455 501 551 606 666 29,400 Total 23,148 24.955 26,983 32,042

Plan for Additional Hiring

3.3.2.2 The Company is a staff deficient company and planning to hire the employees for its smooth operation and achieve efficiency.

3.3.2.3 The following is the year wise plan of hiring along with costs:

Table 3.5: Summary of new	Hiring				
Detail	2025-26	2026-27	2027-28	2028-29	2029-30

Basic pay, allowances and employee benefits

3.3.2.5 The pay & allowances for FY 2025-26 have been estimated based on the Company's present strength. Pay & allowances and employee benefits including retirement benefits constitute a major portion of the Company's O&M expenses.

Retirement benefits

3.3.2.6 The company has created a separate fund for the retirement benefits for all employees of supply as well as for distribution business, which needs to bi-furcate in detail through an actuarial. For this petition purpose the retirement liabilities has been bi-furcated proportionately on the basis of Basic pay. And projected on the basis of CPI.

Table 3.7: Post-retirement Benefits break-up in PKR million									
Head of Account	FY26	FY27	FY28	FY29	FY30				
Pension	7,405.41	8,145.95	8,960.55	9,856.61	10,842.27				
Free electricity (retired)	270.67	297.74	327.51	360.27	396.29				
Medical	732.64	805.91	886.50	975.15	1,072.66				
Leave Encashment	319.56	351.51	386.67	425.33	467.87				
Total	8,728.29	9,601.02	10,561.23	11,617.35	12,779.09				

NEPRA is requested to allow the above gross amount of retirement benefits in tariff for the tariff period.

Repairs and maintenance

3.3.2.7 The R&M expenses have been calculated at 4% for FY 2025-26 and 3% for the FY 2026-27 to 2029-30 of net fixed assets at the end of the year. In light of the above NEPRA is requested to allow the Company the following repairs and maintenance expense for the period FY2025-26 to FY2029-30.

Financial Year	2025-26	2026-27	2027-28	2028-29	2029-30
R&M expenses (Rs. in Million)	2,364.88	2,410.95	2,700.18	3,027.96	3,400.07

Vehicle running Expenses

3.3.2.8 The Vehicle running expenses have been calculated on base year and indexed as per CPI. NEPRA is requested to allow the Company the vehicle expense for the period FY2025-26 to FY2029-30 as requested.

Financial Year	2025-26	2026-27	2027-28	2028-29	2029-30
Vehicle expenses (Rs. in Million)	650.00	571.00	496.10	545.72	600.29

Travelling and Other operating expenses

3.3.2.9 Travelling expenses are paid to employees in lieu of discharge of duty out of head quarter. These expenses are necessary and company is liable to pay as per travelling rules of the company.

Financial Year	2025-26	2026-27	2027-28	2028-29	2 029-30
Traveling expenses (Rs. in Million)	368.55	385.39	423.92	466.32	512.95

Other Expenses

3.3.2.10 Other expenses of the company are almost fixed in nature like building rent, collection expenses, stationary and supplies, legal fees, software license fees, NEPRA license fees, tariff petition fees, photo state expenses, audit fees etc. while collection expenses and software license fee are linked to growth in the Company's customers. NEPRA license fees is computed on the basis of the mechanism prescribed by NEPRA and projected annual demand of electricity. All other expenses are increased by CPI during the entire tariff period.

Financial Year	2025-26	2026-27	2027-28	2028-29	2 029-30
Other expenses (Rs. in Million)	950.48	973.53	1,004.88	1,105.37	1,221.36

Adjustment mechanism for O&M costs

- 3.3.2.11 Efficiency factor (X) is submitted to be kept 0% during the tariff period to allow the company sufficient time to make investment and to bring in efficiencies in the utility's operations. Further improvements in operational and governance structures at the Company are also expected to increase costs in the first few years and therefore sufficient time should be allowed to the Company to recover these costs.
- 3.3.2.12 There was no provision for costs incurred as a result of force majeure events such as earthquakes, flooding, acts of terrorism, etc. Immense flooding in 2010 for instance caused significant damage to the Company's network. In the absence of a provision for such events and adjustments restricted strictly to the CPI factor, the Company was unable to recoup the costs required to undertake the necessary repairs.

3.3.2.13 In this respect it is submitted that an additional Z factor should be included in the MYT to cover costs for such events. These costs shall be computed after the occurrence of such at event at which point the Company shall estimate the financial impact of such an event and request NEPRA's approval for inclusion in the subsequent year. As replacement of any equipment as result of such damage shall be covered through proposed investments to be approved by NEPRA, it is anticipated that major costs falling under Z factor will comprise repair & maintenance costs. In the event that insurance coverage is available at a reasonable cost, recoveries made under such an arrangement will not be incorporated in the tariff for the subsequent period.

3.3.3 Return on Rate Base

Table 3.8: Return on Rate a	mount in I	KR millio	n			
Detail	2024-25	2025-26	2026-27	2027-28	2028-29	2029-30

30. 建铁 · 二家

- 3.3.3.5 It is also requested that the current investment plan incorporated in this petition be approved.
- 3.3.3.6 The stated investment plan will result in improvements in its T&D losses and enables the Company enhance its customer base by increasing connections.

Section 1 Sectio

3.3.3.7 Proposed impact of investments on T&D losses reduction is detailed below:

Financial Year	2025-26	2026-27	2027-28	2028-29	2029-30
T&D Losses	25.94%	24.47%	22.91%	22.21%	21.49%

- 3.3.3.8 As is evident the Company would be able to decrease losses by a cumulative 5.40% over the tariff period.
- 3.3.3.9 Capital investments shall have a major impact on the operational efficiency and quality of service delivery by HESCO.

3.3.4 Depreciation

3.3.4.1 Depreciation is charged on written down value (WDV) method. As per Company's policy, building and civil works are depreciated @ 2%, feeders and grids & equipment's @ 3.5%, other plant/equipment and vehicles @ 10%.

3.3.5 Other income

- 3.3.5.1 Other Income includes mark-up on bank deposits, amortization of deferred credit and income from other sources. As there is no clear trend found during the past, hence, other income has been increased by considering moving average of last three financial years.
- 3.3.5.2 The Late Payment Surcharge has been excluded from the Total Other Income as per decision of NEPRA in the Tariff determination of FY 2014-15.

3.3.5.3 The detail of other income is as under.

Table 3.13: Other income breakup in PKR million

4. REVIEW OF ADJUSTMENTS

4.1. Annual adjustment

4.1.1.1 Investments made by the Company are added to the regulatory assets base which is used to determine the return on rate base. The difference between the budgeted and actual investment will result in variations in RAB and return on rate base. It is therefore requested that investments should be trued up every year. As a 5 year multi-year tariff has been requested, investment trued up at the end of each year will ensure that appropriate return is allowed on the regulatory assets base for the next year. Further, it will enable NEPRA to monitor performance of the DISCO in terms of timely completion of proposed projects and ensuring prudency in costs so no undue burden is placed on the end-user.

4.2. Future Prior Year Adjustments

- 4.2.1.1 It is proposed to continue Prior Year Adjustments in future periods to address the issues included, but not limited to the following
 - Variation in forecasted & actual Distribution Margin, other income and Prior Period Adjustments; and
 - Any other adjustment in addition to above.

4.3. Rebasing

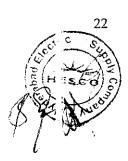

4.3.1.1 NEPRA will rebase tariffs every five years within the period of the Company's license. The rebasing will involve revising the forecast parameters to be used in setting tariffs for the next five years of the license period. This will involve NEPRA approving forecasts of operating costs, investment program, customer numbers and demand growth used in the average distribution margin formula. The average margin formula itself will not be reviewed. NEPRA would be expected to allow the Company a prudent level of operating costs and investment program consistent with forecasts of customer numbers, demand and service network expansion. NEPRA would also be expected to review the officiency gains achieved by the Company during the previous 5-year period of control with the view to setting appropriate operating efficiency and loss reduction targets for the forthcoming 5-year period.

5. CONCLUSION AND PRAY

- 5.1.1.1 On the basis of above it is, inter alia, submitted that while admitting and allowing this petition, the Tariff of the Company for FY 2025-26 to 2029-30 whereby:
 - I. The Company may be benefited by the timely determination and immediate application of the proposed tariff to ensure its financial viability and reliable system of supply of electricity to its consumers;
 - II. NEPRA allow the tariff framework proposed herein designed with a view towards providing financial autonomy to the Company.
- III. NEPRA may determine with reasons and allow the Company, on basis of anticipated sale during FY 2025-26 to FY 2029-30, to recover the Revenue Requirement as mentioned in the petition.
- IV. The other periodical adjustments as per determinations of NEPRA may please be allowed to be continued;
- V. Annual WACC indexation for RORB calculation for the tariff period.
- VI. Any other relief, order or direction which NEPRA deems fit.

(FAIZULLAH DAHRI)/ CHIEF EXECUTIVE OFFICER

Engr. Dr. Bilal Masood	Addl Director (C & I)							
Mr. Qasim Butt	DD (Technical)							
Mr. Wajahat Ali	Assistant Director (C&I)							

- 2 The Authority considered the working paper submitted by Registrar.
- 3. The Sponsor apprised the Authority that Multan Electric Power Company Limited (MEPCO) vide letter dated 25.04.2025 has submitted a petition for determination of tariff for its Distribution Business for FY 2025-26 to FY 2029-30 under Multiyear Tariff Regime, in terms of Rule 3 of NEPRA (Tariff Standards and Procedure) Rules, 1998 (Tariff Rules 1998) read with Section 7 and Section 31 of NEPRA Act alongwith all other enabling Provisions and Guidelines.
- 4. The Sponsor briefed the Authority that MEPCO was granted Distribution License DL/06/2023 dated 09.05.2023, for distribution of electric power to the consumers in the areas of Multan, D.G. Khan, Rajan Pur, Vehan, Bahawalpur, Lodhran, Sahiwal, Pakpattan, R.Y.Khan, Muzaffargarh, Layyah, Bahawalnagar and Khanewal.
- 5. It was also discussed that previously, the Multi Year Tariff for Distribution and Power Supply businesses of MEPCO was lastly determined by the Authority on 02.06 2022, separately, for a control period of 05 years from FY 2020-21 to FY 2024-25 which is going to expire on 30.06.2025. Subsequently, NEPRA directed 07 XW-DISCOs including MEPCO to file MYT petitions separately for Distribution and Supply of Power Business after incorporating the approved investment plan and T&D losses for the relevant period

Minutes of Authority Regulatory Meeting RM 25-224 held on May 09, 2025

held on May 09, 2025 Page 1 of 4

- 6. MEPCO, vide letters dated 17.03.2025 and 20.03.2025, sought NEPRA's guidance on whether to base its Multiyear Tariff (MYT) petition on the already submitted Business Plan or to follow an alternative approach for timely submission and approval. Subsequently, MEPCO has submitted its MYI' petition for determination of tariff for its distribution business for FY 2025-26 to FY 2029-30, along with a separate petition for its power supply business, which was presented separately.
- 7. As per Part 5 of the NEPRA Guidelines for Determination of Consumer End Tariff (2015) requires approval of the Investment and Procurement Plans of Distribution Companies before tariff petition submission. Whereas, Regulation 7(5) of the NEPRA (Electric Power Procurement) Regulations, 2022 reproduced as below:
 - "A supplier of last resort shall ensure that its tariff petition is prepared and submitted in accordance with the power acquisition programme approved by the Authority under these regulations."
- 8. MEPCO submitted its 5-year Distribution Integrated Investment Plan (DIIP) for FY 2025-26 to FY 2029-30 on 25.10.2024, and a hearing was held on 28.01.2025; however, the Authority's determination is still pending. Meanwhile, the Authority approved the combined Power Acquisition Program (PAP) of XW-DISCOs for FY 2022-23 to FY 2026-27 vide determination dated 20.05.2024.
- 9. Rule 3 of the NEPRA Tariff Rules, 1998 and the 2015 Guidelines require DISCOs to file tariff petitions using prescribed forms. Post-2018 Act amendments, DISCOs file separate Distribution and Supply petitions, though the forms remain un-bifurcated. NEPRA is developing separate guidelines for each, with public consultation initiated but not yet finalized. Meanwhile, MEPCO has submitted the required fee and documents per current rules
- 10. The Sponsor informed that the Petitioner / MEPCO has submitted the following:
 - i. The Company may be benefited by timely determination and notification of the approved tariff to ensure its financial viability and reliable supply of electricity to its 8.356 Million (by the end of FY 2023-24) consumers:
 - 11. NEPRA may determine and allow the Company, on basis of anticipated sale during MYT Control Period i.e. I'Y 2025-26 to FY 2029-30, to recover the Revenue Requirement as mentioned in the tariff petition formats including Investment Plan of Rs. 131,027 million (excluding CAPEX related to Consumer Finance amounting to PKR 58,825 million).
 - iii. Other periodical adjustments as per existing mechanism of NEPRA, may please be continued:
 - iv. MEPCO may be allowed induction of 5,696 employees during MYT Control Period as per the proposed induction plan submitted with this tariff petition.
 - v. The Company may be allowed to create 30 new (op) Sub Divisions, 06 new (op) Divisions, 21 new/upgrade grid station offices, 01 each new office of Operation circle, M&T circle. RRE construction division, Regional store.
 - vi. The Company may be allowed Annual WACC indexation for RORB calculation for the tariff period.

Minutes of Authority Regulatory Meeting RM 25-224 held on May 09, 2025

Page 2 of 4

vii. To allow the Company the proposed segregation of Controllable and Uncontrollable cost, Repair & Maintenance through "K" factor and a "Z" factor for unforeseen factors.

viu. Any other relief, order or direction which The Authority deems fit."

11. The Following comments for Departments/Professionals were received:

Department/ Professional	Comments
Licensing Department	MEPCO holds a distribution licence No. DL/06/2023 dated May 09, 2023. The same is valid during the period of MYT period. Further, the review of the petition reveals that the same substantially complies with the Tariff Rules and the NEPRA guidelines."
Tariff Department	It is submitted that till the filing of these petitions, IHESCO, MEPCO, QESCO, SEPCO & PESCO's investment plan for the five years control period is still under consideration of the Authority and has not yet been approved. Similarly, assessment of T&D losses for the period under consideration has also not been decided.
	Here it is pertinent to mention that in the absence of the aforementioned approvals, it is not possible for Tariff department to work out the distribution margin and average tariff of HESCO, MEPCO, QESCO, SEPCO & PESCO.
	Considering the fact both these aforementioned approvals are essential for finalization of MYT petitions and also is a pre-requisite for filing of Tariff petition as per NEPRA Guidelines for determination of Consumer Find tariff (Methodology and Process) 2015, Part 5(23), therefore, Tariff department is of the view that the petitions may not be admitted until the T&D losses and investment plans are determined by the Authority and respective DISCOs incorporate the same into their MYT petitions. Alternatively, the Authority may also consider admitting these petitions from the date of the final determination of the Authority in the matter of Investment Plan of the respective DISCOs. "
Technical Department	As per Section 32 of the NEPRA Act and Regulation 14 of the NEPRA Licensing (Distribution) Regulations, 2022, distribution licensees are obligated to submit a five-year investment plan to the Authority for approval. Furthermore, it is mentioned in the NEPRA Guidelines for Determination of Consumer-End Tariff (Methodology and Process), 2015 that the Investment Plan must be approved prior to the determination of consumer-end tariffs for any distribution licensee.
	In this regard, MEPCO submitted its Distribution Investment Plan on October 25, 2024. A hearing on the matter has been conducted on January 07, 2025. The instant petitions of supplier and distribution tariff have been filed pursuant to the NEPRA Tariff (Standards and Procedure) Rules, 1998 and the NEPRA Guidelines for Determination of Consumer End Tariff (Methodology and Process), 2015. Given that, the parallel processing of the tariff petition and the investment plan is supported by the Technical Department for consideration by the Authority."
Legal Department	The instant MYT tariff petition filed by QESCO is in compliance with the Tariff Rules 1998 and the same may be placed before the Authority for admission."

12 The Sponsor placed the working paper for a consideration and a decision of the Authority.

B

DECISIONS OF THE AUTHORITY REGULATORY MEETING RM 25-224 REGARDING MYT PETITION FILED BY MEPCO FOR DETERMINATION OF DISTRIBUTION TARIFF FOR FY 2025-26 TO FY 2029-30

- 13. The Authority after detail deliberations on the working paper presented by the sponsor in the subject matter and in its collective and joint wisdom decided with consensus as under, which will be hereafter called as decision of the Authority in the matter:
 - i. Admitted in principle, the tariff petition filed by MEPCO for determination of Tariff for distribution business commencing from July 01, 2025 to June 30, 2030. The Petitioner maybe informed that the petition would stand admitted from the date, the final determination of the Authority in the matter of MEPCO's Transmission & Distribution investment plan is issued. The petition will be processed as per the final determination of the Authority in the matter of MEPCO's investment plan.
 - is. Authorized ADG (Tariff) to nominate a case officer for further processing of the case and ensure completion of required documents during processing.
 - iii. Directed sponsor to write a letter in consultation with tariff and legal department to eight XWDISCOs including MEPCO, PESCO, SEPCO, QESCO, GEPCO, TESCO, HESCO and HAZECO to submit applications for interim tariff of FY 2025-26 for rebasing of the tariff for DISCOs.

Waseem Mukhtar Chairman

Rafique Ahmed Shaikh Member Amına Ahmed Member

Engr Maqsood Anwar Khan Member

Minutes of Authority Regulatory Meeting RM 25-224 held on May 09, 2025 Page 4 of 4

Annex-1 RM 25-192

Note of Member (Law)

Whilst the decision taken by the Authority in the instant case is consistent with the earlier decision in the matter of K-Electric (RM 24-19, dated 10 January 2024), it is important to note that there is no express prohibition in the applicable Rules or Tariff Guidelines that prevents this petition from being admitted and processed, given the final determination shall be made only upon the decision on the investment plan.

Although I was not a part of the decision in the K-Electric case, in the interest of maintaining consistency, and considering that the relevant tariff team is already burdened with other assignments, and that the tariff petitions of this DISCO and others require due proceedings and cannot be completed before June 2025, thereby necessitating the filing of interim applications by them for the approval of tariff which will be effective from 01 July 2025, hence, I agree with the Authority's decision in the present matter.

Amina Ahmed Member (Law)

Hyderabad Electric Supply Company Limited
WAPDA Office Complex
Hussainabad, Hyderabad

Subject: MULTI YEAR TARIFF PETITIONS FILED BY HESCO FOR THE FY 2025-26 TO 2029-30 DISTRIBUTION & POWER SUPPLY TARIFF

Reference:

- i. HESCO letter No. CEO/CFO/HESCO/CPC/3856 dated 29.04.2025
- ii. HESCO letter No. CEO/CFO/HESCO/CPC/3057 dated 29.04.2025
- iii. NEPRA letter No. NEPRA/R/HESCO/Supply Tariff-2025/3990 dated 08.05.2025
- iv. NEPRA letter No. NEPRA/R/HESCO/Distribution Tariff-2025/3988 dated 08.05.2025

This is with reference to NEPRA's letter dated 08.05.2025 through which the tariff petitions of HESCO for determination of Distribution and Power Supply Tariff have been returned due to deficiencies.

- 2. As already conveyed vide NEPRA's letter dated 11.03,2025, DISCOs are required to file their petitions by January 31 of the preceding Financial Year. However, HESCO has submitted petitions with much delay in the last week of April and that too with deficiencies.
- 3. It may be noted that deadline for rebasing of tariff for FY 2025-26 is June 2025. However, non-submission of Petitions by HESCO even after lapse of 05 months, may lead to delay in determination of consumer end tariff for the FY 2025-26.

4. HESCO, is therefore directed to immediately re-file its Multi-Year Tariff Petitions for determination for tariff for Distribution and Power Supply businesses along with applications for interim tariff for FY 2025-26 for consideration of the Authority.

(Iftikhar Ali Khan) Addl. Director General

Subject: Filing of Multi-Year Tariff Petitions

The Authority vide its Guidelines for determination of Consumer End Tariff (Methodology and Process) 2015 ("the Methodology"), notified vide S.R.O 34(1) dated 16th Jan, 2015, prescribed timelines for submission of tariff petitions by the XWDISCOs, whereby DISCOs are required to file their tariff petitions by January 31 of the preceding Financial Year.

- 2. The Authority awarded Multi-Year Tariff to MEPCO, GEPCO, PESCO, TESCO, HESCO, SEPCO and QESCO, which is going to expire on June 30, 2025. However, aforementioned XWDISCOs has not submitted the MYT petitions till date, which may lead to delay in rebasing of consumer-end tariff for FY 2025-26.
- 3. In view thereof, you are hereby directed to file Multi-Year Tariff Petitions separately for Distribution and Supply of Power business after incorporating the approved investment plan and T&D losses for the relevant period.
