

# **National Electric Power Regulatory Authority**

## **NEPRA**

**May 02, 2019**

Subject: **Rebuttal by NEPRA on News tickers on 2<sup>nd</sup> May, 2019**

The Authority has observed that a private channel has aired some news tickers whereby it is claimed that the base tariff of certain electricity consumer categories has been increased. The Authority rebuts the aforementioned news item as no new decision has been issued by the Authority in this regard. The last decision of the Authority with respect to applicable base consumer end tariff, was subsequently notified by the GOP with effect from 1<sup>st</sup> January, 2019. The existing applicable base consumer end tariff remains unchanged as on today. Hence the news aired by a certain private news channel is not correct.
