PRESS RELEASE

Subject: NEPRA released pocket-sized “Line Staff Safety Handbook”

National Electric Power Regulatory Authority (NEPRA) is pleased to announce the release of pocket-sized “Line Staff Safety Handbook” on Monday, June 13, 2022. This is a historic day for the distribution sector. This line staff safety handbook task was initiated earlier this year under the guidance of the Honorable Authority under NEPRA’s vision of ‘Power with Safety’. This safety handbook has been prepared in Urdu language so that the line staff can always keep it in their pockets and can quickly refer to it in the field for accurate and necessary information to prevent accidents. Numerous International Best Practices, Standards and Codes were referred while preparing this safety handbook such as ASTM, IEC, IEEE, NFPA, NESC, etc. All the articles and lessons given in this handbook were thoroughly researched and scrutinized to ensure it meets our current requirements and provides accurate essential information to our line staff to save their precious lives in the field.

2. Chairman NEPRA, Mr. Tauseef Hassan Farooqi in his message told that the protection of workers’ lives is one of the main goal of NEPRA’s drive of “Power with Safety”. He hoped that this handbook will immensely contribute in achieving that goal, ultimately leading to zero incidents in power sector especially in distribution sector.
