SUBJECT: DECISION IN THE MATTER OF COMPLAINT FILED BY MR. FAROOQ AHMAD S/O CHAHAT KHAN UNDER SECTION 39 OF THE REGULATION OF GENERATION, TRANSMISSION AND DISTRIBUTION OF ELECTRIC POWER ACT, 1997 AGAINST LESCO REGARDING DETECTION BILL (REF#07 11222 0349100)

DECISION

This decision shall dispose of the complaint filed by Mr. Farooq Ahmad (hereinafter referred to as the "Complainant") against Lahore Electric Supply Company Limited (hereinafter referred to as the "LESCO") under Section 39 of the Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 (hereinafter referred to as the "NEPRA Act").

2. NEPRA received a complaint from Mr. Farooq Ahmad wherein the Complainant submitted that a detection bill was charged by LESCO during the month of February, 2025 as outstanding arrears amounting to Rs. 256307/- having lapse of several months against its replaced meter. The matter was taken up with LESCO and hearings were held at NEPRA Provincial Office, Lahore during which LESCO officials submitted that the Complainant's meter became defective and was, later, replaced while the units retrieved through M&T, LESCO were, then charged against the Complainant's account. Upon which, the Complainant raised its observations and challenged the delay in charging of belated adjustment.

3. The case has been examined at length in light of the record made so available by parties, arguments advanced during the hearings and the applicable law. Following has been observed:

- i. The Complainant's residential connection installed against a reference number 07 11222 0349100 located at V Kharyal, Khana, Lahore was charged a detection bill of (4496) units by LESCO during February, 2025 on account of the meter defectiveness. The issue raised by the Complainant was that the mala fide exorbitant detection bill has been charged by LESCO accruing a considerable delay.
- ii. Perusal of documentary evidence reveals that the Complainant was charged detection bill of (4496) units during February, 2025 on account of actual consumption of defective meter replaced during July, 2024. According to the clause 4.3.2 (d) of Consumer Service Manual (CSM), consumer's account shall not be liable to any adjustment if the data is not retrieved within three months of display wash. However, as per the available record, the Complainant's meter was declared defective and was replaced during July, 2024. Subsequently, a detection bill based on the retrieved units was, later, charged during February, 2025 accruing considerable delay of approximately (06) months while standing in direct violation of CSM.
- iii. Hence, charging of the detection bill on the basis of reading difference is not merited as per above mentioned clause of CSM which obligates LESCO to finalize adjustment as per retrieval report within (3) months of malfunction, however, actually levied by LESCO after delay of (06) months in instant matter which requires withdrawal of the detection bill.
4. Foregoing in view, LESCO is directed to waive off aforementioned detection bill of 4496 units charged to the Complainant during February, 2025 and revised bill be issued to the Complainant within thirty (30) days. Further proceedings in the matter are being closed by this office.
