Decision of the Authority regarding motion filed by the Federal Government under Section 7 & 31 of the NEPRA Act 1997 read with Rule 17 of the NEPRA (Tariff standards and procedure) Rules, 1998 with respect to recommendation of Consumer end tariff

DECISION OF THE AUTHORITY IN THE MATTER OF MOTION FILED BY THE FEDERAL GOVERNMENT UNDER SECTION 7 AND 31 OF THE NEPRA ACT 1997 READ WITH RULE 17 OF THE NEPRA (TARIFF STANDARDS AND PROCEDURE) RULES, 1998 WITH RESPECT TO RECOMMENDATION OF THE CONSUMER END TARIFF FOR XWDISCOS AND K-ELECTRIC

BACKGROUND

1. NEPRA determined tariffs for seven XWDISCOs for the FY 2018-19 & FY 2019-20 individually under the Single Year Tariff Regime (SYT) for both their Distribution and Supply Functions separately, including revision in the Power Purchase Price (PPP) references. Similarly, for the XWDISCOs under the Multi Year Tariff (MYT) regime, i.e. FESCO, LESCO and IESCO, the Authority through its decisions allowed adjustment in the tariff components for the FY 2019-20, including adjustments on account of under/over recovery of the previously allowed revenue requirement, as per the notified adjustment mechanism along-with revision of the Power Purchase Price (PPP) references.
2. As per Section 31(7) of the Regulation of Generation, Transmission & Distribution of Electric Power Act, 1997 (the NEPRA Act), the above tariff determinations/decisions were forwarded to the Federal Government for notification.
3. In response thereof, the Federal Government, vide letter dated 21.01.2021, submitted a Motion for recommendation of consumer end tariff for XWDISCOs, for the aforementioned tariff determinations. The same was decided by the Authority vide decision dated 12.02.2021, whereby the consumer end tariff for all consumer categories was increased by Rs.1.95/kWh. The same was notified by the Federal Government vide SRO dated 12.02.2021.
4. Similarly, for K-Electric, the Authority in line with the quarterly adjustment mechanism as provided in the MYT determination of K-Electric, notified vide SRO dated 22.05.2018, determined quarterly tariff adjustments of K-Electric for the period from July 2016 till March 2019, vide decision dated 31.12.2019. Subsequently, quarterly adjustments for the quarters April-June 2019 till Jan-March 2020, were determined by the Authority vide decision dated 10.03.2020.
5. The Ministry of Energy afterwards, vide letter dated June 9, 2021, forwarded Policy guidelines, as approved by Federal Government, regarding basis for Re-Targeting Power Sector Subsidies in future and incorporation of the same through modification/adjustment in DISCOs schedule of Tariff (SoTs) as well as uniform SoT, including K-Electric Schedule of Tariff. The Authority decided the matter vide decision dated 23.09.2021, and revised the Uniform Schedule of Tariffs

(SoT), DISCO wise SoTs and Tariff terms & conditions accordingly. The same were notified by the Federal Government vide SRO dated 01.10.2021.

6. The Federal Government now, vide letter no. Tariff/XWDISCOs-2020-21 dated 15.10.2021, has submitted another Motion with respect to recommendation of consumer end tariff for XWDISCOs (**the Motion**), under Sections 7, 31(4) & 31(7) of NEPRA Act, read with Rule 17 of NEPRA Tariff (Standards and Procedure) Rules, 1998 (**Tariff Rules**).
7. A brief of the submissions made by the Federal Government in its Motion is as under;
 - i. Economic Co-Ordination Committee (ECC), vide its decision dated October 24, 2018 approved the Methodology for arriving at Uniform Tariff and its Adjustment, which was, thereafter, approved and ratified by the Cabinet. Furthermore, to structure the discretion for arriving at such uniform tariff, further appropriate guidelines were also adopted, which be read as an integral part of this request.
 - ii. Accordingly, the Authority has been determining the uniform tariff to be charged from the consumers, including the impact of targeted subsidy and inter disco tariff rationalization/cross subsidies, under the Act. The latest uniform tariff in field for XWDISCOs was determined by the Authority through its determination dated February 12, 2021 and has been notified vide SROs 182 to 191 (I)/2021 dated February 12, 2021.
 - iii. The above referred uniform tariff determination and consequential applicable variable charge notified vide the above referred SROs, after accounting for tariff rationalization, tariff differential subsidy and cross subsidies, specifically envisage and provide for net subsidy to the tune of Rs.185 billion only to various categories of consumer. The SROs also specifically provide that modification in the subsidy may be reflected in the relevant Schedule of Tariff through the applicable variable charge.
 - iv. Thereafter, the Authority, through its determination dated September 23, 2021, in respect of Policy Guidelines of the Federal Government, approved modification/adjustments in the DISCOs Schedule of Tariffs and terms & conditions thereof with regard to creation and/or re-categorization of various consumer categories. The said determination of the Authority has been notified vide SROs 1280 to 1289 (I)/2021 dated October 01, 2021. Consequently, after accounting for tariff rationalization, tariff differential subsidy and cross subsidies, such amendments/modification will result in net required subsidy to the tune of Rs. 240 billion to various categories of consumer.
 - v. Based on the consolidated revenue requirements of DISCOs as well as the economic and financial policy of the Federal Government, the tariff differential subsidy (TDS) is proposed to be modified and reduced. This modification in the targeted subsidy is

proposed to be given effect along-with modification of inter disco tariff rationalization/cross subsidies per practice in vogue, through modification of the applicable variable charge of categories of consumers of XWDISCOs. The same has been approved by the Federal Government and is submitted to the Authority for consideration in terms of section 31 (4) of the Act. This modification is not aimed at raising any revenues for the Federal Government, as it is within the determined revenue requirements of the XWDISCOs, as consolidated and determined by the Authority in the terms of section 31 (4) of the Act.

- vi. In this regard, reference is made to the National Electricity Policy, 2021 approved by the Council of Common Interest which, *inter alia*, provides that financial sustainability of the sector is premised on timely recovery of full cost of service and in due course, financial self-sustainability will eliminate and minimize the need for Government subsidies except and save to the limited extent specified per the prevailing Government considerations.
 - vii. In light of the above, the instant Motion has been filed by the Federal Government with respect to Consumer End Tariff Recommendations under section 7, 31 (4) and 31 (7) of the Act read with Rule 17 of the NEPRA Tariff (Standards and Procedures) Rules, 1998 so as to reconsider and issue the revised/modified uniform schedule of tariff of XWDISCOs, by incorporating revised subsidy and inter distribution companies tariff rationalization/cross subsidies for the category of each of NEPRA determined notified rate (inclusive of subsidy/cross subsidies/ inter disco tariff rationalization) in SRO Nos. 01 to 10 of 2019 dated January 01, 2019 as modified by SROs 182 to 191 (I)/2021 dated February 12, 2021 and 1280 to 1289 (I)/2021 dated October 01, 2021.
8. The Federal Government also, vide letter no. Tariff/XWDISCOs-2020-21 dated 26.10.2021, has submitted its Motion with respect to recommendation of consumer end tariff for K-Electric, under Sections 7, 31(4) & 31(7) of NEPRA Act, read with Rule 17 of NEPRA Tariff (Standards and Procedure) Rules, 1998.
9. A brief of the submissions made by the Federal Government in its Motion is as under;
- i. NEPRA determined the MYT of K-Electric, which was duly notified by the Federal Government on May 22, 2019.
 - ii. Subsequently, quarterly tariff adjustments for K-Electric were determined by the Authority on December 31, 2019 for eleven quarters. The last quarterly adjustment was notified by Federal Government vide SRO 1037(I)/2020 dated October 12, 2020 and subsequently, the applicable variable charge was further adjusted vide SRO 192(I)/2021 dated February 12, 2021 in order to maintain uniform tariff in the Country. Additionally, the Authority determined quarterly adjustments for four quarters ending March 2020

and intimated the same to Federal Government for notification vide letter dated March 10, 2021.

- iii. The above referred tariff determination(s) and consequential applicable variable charge notified vide the above referred SROs, after accounting for tariff rationalization, tariff differential subsidy and cross subsidies.
- iv. The Authority, through its determination dated September 23, 2021, in respect of Policy Guidelines of the Federal Government approved, in principle, the modification/adjustments in the K-Electric Schedule of Tariffs with regard to creation and/or re-categorization of various consumer categories but revised Schedule of Tariff has not been determined by the Authority. Whereas, in case of XWDISCOs, the Federal Government notified revised Schedule of Tariff intimated by the Authority through its determination dated 23.09.2021 with regard to creation and/or re-categorization of various consumer categories vide SROs 1280 to 1289 (I)/2021 dated October 01, 2021.
- v. The Federal Government approved increase in average uniform applicable variable charge of Rs.1.39 per unit to recover the revenue requirements for XWDISCOs determined by NEPRA, keeping in view the proposed targeted subsidy and cross subsidies and it was decided that the same be submitted to the Authority for consideration in terms of section 31 (4) of the Act, which is pending. Accordingly, K-Electric applicable uniform variable charge is also required to be modified so as to recover the revenue requirements of K-Electric, determined by the Authority (inclusive of quarterly adjustments for four quarters ending March 2020) vide decision dated March 10, 2021, keeping in view the proposed targeted subsidy and cross subsidies, which will also be consistent with the proposed uniform national tariff of XWDISCOs.
- vi. The targeted tariff differential subsidy (TDS) (inclusive of proposed modification) after accounting for proposed quarterly adjustment inclusive of proposed cross subsidy and tariff rationalization for K-Electric would be to the tune of Rs.29 billion.
- vii. In this regard reference is made to National Electricity Policy, 2021 approved by the Council of Common Interest, which provides that financial sustainability of the sector is premised on timely recovery of full cost of service and in due course, financial self-sustainability will eliminate and minimize the need for Government subsidies coupled with to implement the policy of uniform tariff cross country.
- viii. In light of the above, instant Motion has been filed by the Federal Government with respect to Consumer End Tariff Recommendations of K-Electric, under section 7, 31 (4) and 31 (7) of the Act read with Rule 17 of the NEPRA Tariff (Standards and Procedures) Rules, 1998 so as to reconsider and issue for K-Electric, modified uniform variable charge, to maintain

- ix. The Authority, accordingly is requested to issue revised SoT determined for the Quarter January to March 2020, with prospective application of applicable uniform rates after incorporating tariff rationalization and upon approval of the Authority, to notify the same in the official gazette by way of modification in SRO Nos. 192(I)/2021, 1037(1)/2020 and 575(1)/2019 on the same pattern of XWDISCOs.
 10. The Ministry also requested to provide an opportunity of hearing in the matter for the purposes of providing detailed submissions.
 11. In order to provide a fair opportunity to the Federal Government to present its case, and all the relevant stakeholders involved, the Authority decided to conduct a hearing in the matter, which was held 02.11.2021 at NEPRA Tower Islamabad through ZOOM. Notice of hearing was published in newspapers inviting comments from the interested / affected parties; further, individual notices were sent to the Federal Government and other stakeholders.
 12. During the hearing, the Federal Government was represented by Additional Secretary, Ministry of Energy (Power Division), Joint Secretary (PF), Ministry of Energy (Power Division), along-with its technical, financial and legal counsel. Representative from CPPA-G, XWDISCOs, media, K-Electric and general public were also present during the hearing.
 13. Following issues were framed for discussion during the hearing;
 - i. **What is the financial impact on each category of consumers and in total?**
 - ii. **Whether the instant motion shall be applied retrospectively or prospectively?**
 14. While responding to the above questions, the MoE during the hearing submitted that for life line consumers and protected consumers' up-to 200 units, no increase in tariff has been proposed. However, for the remaining domestic consumers, an increase of Rs.1.68/kWh is proposed, which also includes the impact of life line and protected consumers. For other consumer categories, a lower increase of Rs.1.39/kWh has been proposed, as the Government does not want to overburden these consumers, especially industrial consumers, so that they remain competitive. The Ministry further submitted that the proposed increase in tariff would be applied prospectively and is within the overall revenue requirement determined by NEPRA. It was also explained that keeping in view the National Policy of maintaining uniform tariff across the Country, same increase would also be applicable to the consumers of K-Electric.

Decision of the Authority regarding motion filed by the Federal Government under Section 7 & 31 of the NEPRA Act 1997 read with Rule 17 of the NEPRA (Tariff standards and procedure) Rules, 1998 with respect to recommendation of Consumer end tariff

15. Upon inquiry from the Authority regarding increase in tariff for domestic consumers consuming up-to 300 units, the Ministry submitted that in Phase-I of the subsidy retargeting program, slabs revision has been approved by the Authority, whereby life line consumption limit has been increased to 100 units and protected consumer category has been created for consumers consuming up-to 200 units for six months. However, there are certain consumers, who get subsidy in winter months despite using more than 300 units during summer.
16. The ultimate goal of the Government is to allow targeted subsidies and recover the cost of electricity. In Phase-II and Phase-III, the subsidies will be rationalized further, to improve the cross subsidy in such a manner that pillars of the economy e.g. Industry remains competitive and is not overburdened. Phase-II is under preparation, and will be presented before the Authority for approval. Regarding providing subsidy up-to 300 units, if such consumers are given subsidy, the differential would be shifted to other consumer categories. It was further appraised that around 45% of the domestic consumers are still getting subsidy, along-with agriculture consumers. The total net subsidy being provided by the Federal Government is around Rs.168 billion.
17. Mr. Arif Bilvani, a consumer of K-Electric submitted that ToU Domestic consumers are cross subsidizing other consumers and in case of lower consumption, even less than 200 units, no subsidy is provided to ToU consumers. The Authority considers that policy guidelines of the Federal Government for retargeting Power Sector subsidy is a step towards recovering true cost of electricity from the consumers and providing subsidy only to the deserving consumers, thus ensuring that burden of existing cross subsidy is reduced. Regarding reasons for increase in tariff, the Authority noted that this primarily includes increase in capacity charges owing to induction of new plants and exchange rate devaluation etc.
18. The Ministry of Energy on the concerns raised by Mr. Bilvani and Mr. Moin Fudda regarding inclusion of inefficiencies of DISCOs in tariff on account of T&D losses and under recoveries, explained that no cost over & above the NEPRA allowed targets is included in the tariff and becomes part of the circular debt only.
19. While responding to the query raised by Hafiz Naeem regarding break-up of agriculture subsidy in terms of small and large farmers, the Ministry submitted that total subsidy of Rs.74 billion is being provided to Agriculture consumers, however, the exact break-up of the same in terms of small and large agriculture consumers is not available at the moment and will be provided subsequently. The Ministry further stated that as part of Phase-II of the subsidy reform program, an analysis is being carried out for dividing the agriculture tube-wells slabs into two categories and would be brought before the Authority, once completed. The Authority noted with concern the non-availability of the required information and directs the Ministry to provide proper break-up of the agriculture subsidy in terms of small and large agriculture consumers while submitting its Phase-II of the subsidy reform program.

Decision of the Authority regarding motion filed by the Federal Government under Section 7 & 31 of the NEPRA Act 1997 read with Rule 17 of the NEPRA (Tariff standards and procedure) Rules, 1998 with respect to recommendation of Consumer end tariff

20. The Authority has thoroughly examined the pleadings made in the Motion and available record and hereby issues the following determination and order in the matter.
21. The Authority has noted that the Federal Government through its instant motion has proposed consumer end tariff for certain consumer categories higher than the Uniform tariff, if consolidated on the basis of NEPRA's national average.
22. Regarding higher category wise tariff proposed by the Federal Government for various categories of consumers, it is to be clarified that NEPRA has not levied any surcharges rather it is the Federal Government which has the statutory power to do the same. Under Section 31(8) inserted through Regulation of Generation, Transmission and Distribution of Electric Power (Amendment) Ordinance, 2021, the Federal Government has the power to levy surcharges and any such surcharge is to be considered as a cost to be included in the tariff determined by NEPRA.
23. The Authority also understands that the proposed tariff by the Federal Government is also within the overall revenue requirement of DISCOs as determined by the Authority.
24. In view of the discussion made in the preceding paragraphs, the Authority has indicated the revised applicable tariff as proposed by the Federal Government, which is attached herewith as **Annex-A, B and C**. The same shall replace the already issued Annex A, B and C, attached with the decision of the Authority dated 23.09.2021 in the matter of Policy Guidelines by the MoE for providing basis for retargeting of power sector subsidies. In addition, an Annex-D i.e. SoT without incorporating the impact of PYA has been attached, which shall become applicable w.e.f. 12.02.2022.
25. Regarding, K-Electric, the Ministry requested to issue revised SoT determined for the Quarter January to March 2020, with its prospective application. It is fact that K-Electric's MYT FY 2017-2023 was notified on May 22, 2019. It is also a fact that K-Electric quarterly adjustments, pursuant to notification of its MYT, have been determined by the Authority till quarter ended March 2020.
26. The quarterly adjustment determined for the quarter "January to March 2020" is applicable for the quarter "April to June 2020". However, if the aforementioned changes are not reflected in the SoT of K-Electric, it would result in differential tariff for K-Electric consumers vis a vis rest of Pakistan. In view thereof, the Authority has decided to amend the SoT determined for the quarter "January to March 2020" w.e.f. 1st of November 2021. The revised SoT is attached herewith as **Annexure E**. The SoTs for the period from April 2020 till October 31, 2021 would be issued as per the existing practice.

My additional observation:-

- With reference to Para 7(vii), NEP (2011) requires timely recovery of full cost of service but the cost should be prudent - the capacity payments to inefficient power plants, extension of PPAs of 1994 power policies, inefficient transmission system etc are all imprudent costs, which can't be passed on to consumers.
- The true cost of electricity means the prudent cost only.
