DECISION OF THE AUTHORITY IN THE MATTER OF INTERIM RELIEF FOR INDEXATION OF THE RELEVANT REFERENCE TARIFF COMPONENTS OF PAK MATIARI-LAHORE TRANSMISSION COMPANY PVT. LIMITED (PMLTC) TRANSMISSION TARIFF FOR THE QUARTER OCTOBER TO DECEMBER 2022.

1. Pak Matiari Lahore Transmission Company (Private) Limited ("PMLTC" the "Company") vide letter dated September 22, 2021 informed that it has achieved Commercial Operations Date (COD) on September 01, 2021. PMLTC vide letter dated October 03, 2022 requested the Authority to allow indexation for the quarter October to December 2022 as interim relief. Subsequently, PMLTC vide their communication dated Nov 04, 2022 and Nov 27, 2022 requested the Authority to use actual months of debt service obligation for indexation of interest component of the tariff. PMLTC submitted that the tariff parameters (LIBOR rate) of actual month's i.e April and October may be considered for the basis of interest component indexation instead of NEPRA's approach of considering the tariff parameters effective from 1st January and 1st July for the basis of interest component indexation.
2. The PMLTC COD true-up/adjustment request with respect to reference parameters of December 04, 2018 tariff are under process with NEPRA. Keeping in view the considerable time period required for verification process for project cost, interim relief (purely on provisional basis) was granted to PMLTC on December 24, 2021 which are subject to adjustment based on their final decision. Subsequently the indexation is allowed in line with the notified mechanism on provisional basis.
3. The Authority considered the request of PMLTC for allowing 31st March and 30th September LIBOR rates for adjustment of the debt servicing component. The Authority observed that NEPRA adjusted the bi-annual debt servicing component of IPPs on the basis of 31st December and 30th June LIBOR/KIBOR rates. In the instant case while allowing the interim indexation the 30th June 2021 LIBOR rate was allowed in line with other IPPs. The licensee can achieve COD at any particular month of the year. Therefore while allowing the debt servicing, previous quarter indices are used as reference for indexation of the relevant tariff components. In line with these parameters and keeping in view the fact that PMLTC has achieved its COD on 01st September 2021, NEPRA has adopted the 30th June LIBOR rate for calculation of the debt servicing.
4. In view thereof the Authority has decided to decline the request of PMLTC for adopting the 31st March LIBOR rates for adjustment of the debt service components instead of 30th June LIBOR rates. Accordingly the decision pertaining to adjustment of the debt service components on the basis of 01st January and 01st July is maintained. The LIBOR rates prevailing for the quarters October 2021 to September 2022 are also made consistent to this methodology.
5. **Order**
 - 5.1 Pursuant to the Decision of the Authority dated December 04, 2018 issued in the matter of Matiari Lahore 4000 MW ± 660 KV HVDC Transmission Line Project [Case # NEPRA/TRF-433/PMLTC2018], the tariff of Pak Matiari Lahore Transmission Company (Private) Limited (PMLTC) for the quarter ending October to December 2022 has been revised on account of CPI (General), US CPI, LIBOR and exchange rate variation in accordance with the requisite indexation/adjustment mechanisms stipulated in the above referred decision of the Authority. The revised tariff indicated hereunder shall be immediately applicable:
