PETITION SUMMARY

1. DETAILS OF THE PETITIONER

i) NAME AND ADDRESS

Bahria Town (Private) Limited Phase -1/II, Bahria Town, Rawalpindi

ii) REPRESENTATIVES OF BAHRIA TOWN (PRIAVTE) LIMITED

Mr. Malik Riaz Hussain
Mr. Ahmad Ali Riaz
Chief Executive
Brig. (R) Abdul Rauf Raja
Assistant Chief Executive

Mr. Syed Shabbar Hussian Shah Company Secretary/

Cdr. (R) Mahmood Hussain

Chief Financial Officer
GM Co-ordination (Power)

Mr. Azhar Mahmood Executive Engineer
Mr. Masoom Akhtar, FCA Financial Consultant

Mr. Rauf Mirza Manager Water and Power

2. GROUNDS FOR PETITIONER'S INTEREST

Petitioner, a bona fide power distribution licensee, is a Private Limited Company incorporated under the Companies Ordinance, 1984. The petitioner is principally engaged in real estate development. The petitioner was awarded distribution licence # 20/DL/2010 on November 24, 2010 by the National Power Regulatory Authority (NEPRA) for its distribution system in the locations developed by it located at Bahria Town, Rawalpindi/Islamabad, in the Province of Punjab and Islamabad Capital Territory (ICT).

Bahrai Town Private Limited has already developed Phase I to VII, Safari Valley, Bahria Garden City while Phase VIII and other surrounding areas are the process of development. However most of its distribution system is functional in under developed areas. Area consisting Phase I to VI and Safari Valley are almost 50% fully constructed and occupied.

In order to perform its obligatory duties prescribed by the Authority (NEPRA) as per NEPRA Performance Standards (Distribution) Rule 2005, the petitioner needs some efficiency improvements; yet such improvement measures require financial resources by determination of appropriate tariff as the internal financial viability of a utility can only be ensured through adequate number of consumer and consumer end tariff.

3. GROUNDS AND FACTS FORMIING BASIS OF THE PETITION

- This petition is, therefore, being filed in accordance with the NEPRA Tariff Standards and Procedures Rules 1998 Part II Section-3.
- Under the 1997 NEPRA Act, NEPRA is responsible for determining tariff and other terms and conditions for the supply of electricity by the generations, transmission and distribution companies and to recommend these to the Federal Government, subject to the guidelines, not inconsistent with the provisions of the NEPRA Act, laid down by the Federal Government. NEPRA is also responsible for determining the process and procedures for reviewing tariffs and recommending tariff adjustments.

Following are the basis of the Tariff petition:

- a. IESCO is the exclusive supplier and calculations are made on existing bulk supply tariff (C-3);
- b. All the financial losses shall be financed by Bahria Town (Private) Limited, the petitioner. These losses shall decrease with the increase in number of consumers;
- c. The future cash deficit including capital expenditures are met by Petitioner from its own resources;

4. RELIEF / DETERMINATION SOUGHT

- Approval of tariff structure proposed (Annexure A & Annexure B);
- Schedule of comparison with IESCO. (Annexure C & Annexure D);
- Projected financial statements for the period of six month i.e. from January 01, 2011 to June 30, 2011 and for the financial year 2011-12 (**Annexure E**) as follows:
 - a) Projected Balance sheet: For the period of six month i.e. from January 01, 2011 and FY 2011-12;
 - b) Projected Profit and loss Account: For the period of six month i.e. from January 01, 2011 and FY 2011-12;
 - c) Projected Cash flow statement: For the period of six month i.e. from January 01, 2011 and FY 2011-12.
- Assumptions to the Financial Projections (Annexure F);

• Technical Data (Annexure - G);

Brig (K) Model Poet Raje

- Category wise & Month wise Number of Consumers (Annexure H);
- Category wise connected load (Annexure I);
- Analysis of Month wise Units Consumption (Annexure J);
- Cost of Projected Electricity Purchases from IESCO (Form 1);
- Electricity Projections (Form 2);
- Projected Energy Sales by Tariffs (Form 3);
- Operating Cost (Form 4);
- Revenue Requirement (Form 5);

• Line Losses (Form - 6).

Key Assumptions to the Financial Projection

Basic Information

The financial projections have been prepared on the basis of the following assumptions:

- 1. All the operational deficit shall be met by the Bahria Town (Private) Limited from its own resources till the electric supply wing comes to surplus level.
- 2. Sales (In KWh) have been projected as given in Table I below:

Bahria Town (Private) Limited Projection of Sales

		J ·			
·				%age	
Sr	Fiscal	Units	Increase /	Increase/	
No	year	(KWh)	(Decrease)	(Decrease)	Remarks

1.	2010-11	21,720,724			Projected Units
2.	2011-12	71,822,882	50,102,158	230.66%	Projected Units

Numbers of units projected for the year 2010-11 (6 months) are 21,720,724 KWh while for year 2011-12 are 71,822,882 KWh. These shall increase from time to time with the increase in number of consumers/dwellers.

3. Revenue (in Rupees) for FY 2010-11 is determined based on the requirements to cover the PPP, portion of operating and Maintenance expenses and depreciation. Adequate return on investment or financial cost has not been incorporated in this proposal.

Assumption includes the increase of PPP from IESO @ 10% during the financial year 2011-2012, accordingly the proposed consumer end tariff assumed to enhance with same ratio.

- **4. Determination of tariff rate:** Proposed tariff is 5% above the tariff charged by the IESCO to its consumers.
- **5. Increase in consumption:** is 5% per month with the assumption of construction and increase of dwellers on monthly basis.

Brig (R) Abdul Rauf Raja (ACE Services)

Ž

- **6. Power Purchase Price:** The existing tariff charged by IESCO shall remain the Power Purchase Price for the purposes of this proposal. The PPP is assumed to increase with 10% during financial year 2011-2012.
- 7. Operating and Maintenance Expenses have been arrived at by actual current cost of division with an increase of 3% during financial year 2011-2012:
- **8. Depreciation** has been taken on the rates as per company policy: Plant and machinery 3.5%, computer & accessories 33% and other assets 15%.
- **9. Workers Profit Participation Fund:** In view of heavy losses no provision has been made.
- 10. Taxation: In view of losses before set off depreciation, no provision for current income tax has been made in these projections.
- 11. **Return on investment:** At this point of time return of investment has not been charged in view of heavy losses and below the capacity supply. However this would be accounted for once break even level shall be achieved.
- 12. Receivables have been assumed at 10% of the last month bill of the financial period.
- 13. Equity is the amount of Head Office Current Account (Bahria Town (Private) Limited) that is repayable after recovering all losses.
- 14. Other creditors include payables against material procurement, retention from suppliers and contractors, capital receipts against works / connections to be executed.
- **15. Technical Loss** is assumed as follows:

- Period ended June 30, 2011 8,50%

- Year ended June 30, 2012 6.00%
